

You represent members. Most likely, you do so because you have something in common, stand stronger together, or need to address specific challenges. Regardless of why you need to communicate. We can help you. We want to help you. We even give your members advantages.

INKISH is one of the few global media companies focused on storytelling, and using our channels to communicate specifically to the industry. And we don't have advertising on our sites.

Communication is important, and we don't claim to be better than any, but we offer you a platform and an opportunity to have a partner that supports your mission.

How it works!

You most likely need to tell what you do. Not only to members, but also potential members, stakeholders and even the industry in general. You may do this on your website. You may use various channels. You meet your members at conferences or member meetings.

We cover your events, and deliver your stories on INKISH.TV. We transcribe all your films, and we even offer - for an additional cost - to subtitle the films in many different languages. We publish your events on our website and ensure a reach. You can embed all the content we do on your website as well, and we will also write about your doings on INKISH.NEWS - two platforms that enable a larger audience.

***Country Pages**

Open Google. Search for “Print Service Provider” + your country. You will, of course, get the list of all the adverts, but you will most likely not find a complete list of printers in your country. We believe that our industry’s growth depends on being found, engage with the printers, and understand the value the printed media brings to the market. With INKISH country pages we share your members, with details, links, and even the films made with them. We share your data as a federation, and we try to make everybody more visible.

INKISH Country pages are our contribution to the industry, and we offer your members to be visible as part of your support to INKISH. Many winners *Standing Stronger Together*.

Normal price for printers is €12 annually. This is charged on an annual basis and what you get is not only a “phonebook” add, but also search engine optimization, advertising, and some quite nice features we are currently developing with an aim to give you customers.
